## The Concord Center, Psychologist Job Description:

The Concord Center, LLC, is seeking full-time licensed or license eligible psychologists (with specific training and expertise working with children, adolescents, and/or emerging adults) to join an expanding group clinical psychology practice in Concord, Massachusetts. The Concord Center, founded by Dr. Jamie Micco and Dr. Benjamin Banister, specializes in evidence-based treatments for mood and anxiety disorders, OCD, personality disorders, and related emotion dysregulation in children, adolescents, and emerging adults. Individual and group therapy services are provided using evidence-based modalities, with a focus on cognitive behavioral therapy (CBT), exposure and response prevention (ERP), and dialectical behavior therapy (DBT), among others.

### Benefits Include:

- Highly competitive salary (private pay practice)
- Health, dental, and vision insurance
- Short term disability, life insurance, and other optional insurance offerings
- 401K program with employer match
- Paid professional liability insurance
- Paid time off and holidays
- Bonus program
- Strong referral stream (existing practice waitlist and demand)
- Bright, fully furnished, and newly renovated office space
- Flexible clinician scheduling (e.g., no requirement to work weekends; work-life balance is valued)
- Weekly didactic seminar on topics relevant to CBT, DBT, and other specialized empirically supported treatments
- Group case consultation meetings
- Stipend for training and continuing education opportunities
- Supportive, collaborative environment
- Community outreach opportunities
- Opportunity for program development
- Potential to engage in future research or publication opportunities

### Qualifications:

- Doctoral degree in Clinical, Counseling, or School Psychology
- At least one year of post-graduate clinical experience preferred
- Licensed in the state of Massachusetts (currently or within 6 months of start date)
- Training in evidence-based treatment with children/adolescents and emerging adults—e.g., cognitive behavior therapy, exposure and response prevention, parent child interaction therapy, dialectical behavior therapy, acceptance and commitment therapy, motivational interviewing
- Experience using these treatments to address anxiety disorders (social anxiety, GAD, panic disorder, specific phobias), OCD, and related mood disorders
- Experience providing clinical care to children and/or adolescents, along with adults
- Enthusiasm for continuing in-depth learning about various empirical treatment modalities
- Eligible to work in the United States

Applications will be accepted on a rolling basis through May 1, 2022, or until the positions are filled.
